

YACHT WHEELS

Connecting You With Your Passion™

CARBON / WOOD LAMINATE WHEEL

This exquisite wheel features teak and holly wood laminates, together with areas of beautifully clear-coated carbon-weave laminate. The spokes are carefully sculpted into the teak and holly rim for a very comfortable grip for the helmsman, as well as a robust connection of the spokes to the wheel rim. The wheel rim is constructed of alternating layers of teak and holly creating a beautiful contrast of two classic maritime woods. The level of construction and finish in these wheels is unmatched, and as a result, they quickly become the focal point on the finest vessels. These wheels are coated with multiple layers of clear Awl-Grip® for a mirror finish. They are available with or without Edson's wheel clutch. Custom faceplate engraving available.

Features:

- Hand Crafted
